

Minerals & Waste Restoration

This long-standing service provides solution focused restoration, landscape and environmental management to mineral and waste operators. We work cooperatively with clients, neighbouring landowners and statutory authorities to achieve the best result for all parties.

By building a strong relationship with key environmental stakeholders and statutory consultees, we are able to bring a unique balance of innovative, pragmatic and cost effective advice to a range of projects.

Our services include:

- Planning Rationalisation & Stakeholder Liaison
- Land Survey & Management Planning
- Cost Engineered Landscape & Habitat Design
- Soil Survey & Advice
- Restoration & Aftercare Management Plan (RAMP)
- Implementation Management & Clerk of Works
